MOVE VIRGINIA COAL.

Consolidation of Ann Arbor and Detroit Southern Announced.

(Special to The Times-Dispatch.)
NEW YORK, May 5.—Negotiations have
just been completed whereby the Ana
Arbor and the Detroit Southern are
merged into one railroad system, which,
from the nature of this consolidation,
will be enabled to command fields highly
profitable for railroad enterprise. They
will not alone move ore and lamber from
the Lakes, but will obtain a good portion of the coal trade in the Virginia
fields.

Recent activities of the interests identified with the two roads have tended toward the unification of their management. The recent purchase of the Ann Arbor from the Wabash interests by Kleybolte and Company was undertaken for the syndleate which controls the Detroit Southern, and which is represented by H. B. Hollins and Company.

At the time the Ann Arbor changed

hands it was announced that the purchase had no connection with the Cincinnati, Hamilton and Dayton, or the Pere Marquette. It is true that the ownership and management of the Ann Ariser and Detroit Southern will be distinct from the Cincinnati, Hamilton and Dayton system, although similar interests are identified with both systems. Insulity to combine them is due to the fact that the Detroit Southern and Cincinnati, Hamilton and Dayton are parallel roads. But a harmonious working arrangement will be entered into by the two systems. The Detroit Southern will thus enter Toledo over the tracks of the Cincinnati, Hamilton and Dayton to obtain a share of the Southern ore trade.
